12 countries – approx. 4.500-5.000 kms – 5-6 tripoints – 17 official border crossings-
plus other border visits ...

A combined **BORDER** AND **TOURIST** expedition !!! NO hotel reservations made
except for Budapest. VERY important: due to the often changing conditions in the
Balkan countries, this schedule is only OPTIONAL: things may change – and there-
fore the utmost flexibility of all participants is required: we might have to change our
itinerary – sooo: a great experience where you can expect some surprises en route...☺
